Yes, I got them and talked to Barry about them on Wednesday.

Someone has been very busy.

As I predicted to Barry, the insular group think in the BDCP world has already kicked in to treat these proposals and the accompanying letters as outliers.

Which I really don't think they are, given the broad range of folks who are asking for a different alternative.

At some point, I would like to get a download from you as to where you think this is going. We got nothing from Nawi yesterday other than that the Principals are working on "the schedule" and also working on some kind of ESA segmentation (at least that's what it sounds like to me). No details. no paper.

But EPA needs to figure out how its going to engage in all of this, given no Bruce, no Karen, and as of yesterday, no Regional Counsel to protect her staff from the politicals. Interesting times.
